

Gatwick Flagship Chapter

Good morning all

Tony Quinlivan or is it Phil Parmenter here from AQ Services.

We are your local electrical contractors, based in Horsham but will travel anywhere (if the price is right).

Who do you know who's electrics don't do what they are supposed to do or are in need of electrical installations or repairs on any Commercial or Industrial premises.

If you do, we are the people they need.

We are fully qualified to carry out Inspection, Testing & Certification of electrical installations, and also carryout Portable appliance testing.

On completion we will supply Certification & Appliance Logs for any future testing.

If you need a backup power supply or D.C. power systems we can supply & install any size to suit your requirements.

We are seeking installation and repair works in any Commercial & Industrial premises, so any leads or referrals in this area would be appreciated.

And always remember,

"Electricity is safe in Our Hands"
