

# Gatwick Flagship Chapter

---

Hi, my name is Barry Jeffrey from Jeffrey Automotive

We are mobile mechanics and can travel to your home or place of work. We are specialists in engine repairs and diagnostics. With a regular diagnostic health check you can avoid costly bills before a crucial breakdown happens and unlike other mobile mechanics, there is no call out charge.

The kind of referral that would be good for me is introductions into fleet managers who regularly have their vehicles serviced or repaired. We can save companies time and money by alleviating the need for staff to take their vehicles to a garage, by working at their own premises.

That's Barry Jeffrey, Jeffrey Automotive
