

## Gatwick Flagship Chapter

---

Hi, I am Danny George of Bisset Moffatt Hill, we are a Practice of Chartered Surveyors, with offices in Crawley and Slough and we have been running for 11 years.

A large percentage of our business is to act on behalf of commercial occupiers, in offices, shops, warehouses, factories and leisure, trying to reduce the business rates that they pay. We can also act on their behalf against landlords in respect of rent reviews and lease renewals and in the acquisition of new or additional premises by insuring that occupation is on the best terms possible.

We generally base our fees on a percentage of any savings that we achieve for our clients and on a no win no fee basis.

We currently represent relatively small workshop occupiers up to large national chains such as Comet Electrical. We are looking to act on behalf of anybody occupying commercial space that needs to save money or at the very least needs good advice. We will work as far north as Peterborough, out to Margate, over to Salisbury, with everything in between.

That's Danny George of Bisset Moffatt Hill Chartered Surveyors, we are not here to get the right result for our clients, but the best result.
