

Gatwick Flagship Chapter

Good Morning,

My name is and I am standing in for Joe Sacco from Automotive Funding Solutions.

AFS is a vehicle leasing specialist, supplying any make or model of car or van, using a selection of finance methods to suit the customer needs and maximise their business and personal tax liability.

Typical customers are either businesses operating a fleet of vehicles (1 or more) or private individuals who get cash option as part of their salary package.

An ideal lead for AFS is a company that currently operates a fleet where the vehicles are over four years old. They can assist in supplying low emission vehicles to keep drivers company car tax implications to a minimum.

AFS is also seeking out companies that buy their vehicles outright. The tax advantages of leasing and Vat reclaim make contract hire an extremely cost-efficient way of acquiring new vehicles.

So if you know of any such companies, or for any-one looking to finance a vehicle, then Joe from AFS would be very happy to hear from you.

Thank-you
