

For a Fast Friendly Fixed Price Service

During this time of financial strain businesses should be keeping a closer eye on their finances, we can help on two fronts.

1. If your books are up-to-date, you can see,
 - how your cash flow is doing at any one time,
 - reports can be run showing where you need to be focusing your attention,
 - which line of business results in the greatest profit etc.
2. Employing someone at this time, is risky, as not only do you need to consider the obvious costs, you also need to consider;
 - the employers National Insurance,
 - sickness & holiday cover
 - but also if business takes a downturn you have the issue of making someone redundant.

We can cover you for 52 weeks of the year, with no need to double your costs to cover sickness and holiday or even maternity.

If the hours needed, go up or down, we can accommodate, and we bear all the additional costs, and hassle of employment.

We are looking for an introduction to W & H Motors
