

# Gatwick Flagship Chapter

---

Good morning everyone!

My name is ..... and I am substituting for Matt Allen of Synergee. Synergee are chartered accountants and business development consultants based in Tunbridge Wells and serving the southeast.

We provide a wide range of services including:

1. The traditional services you would expect from a firm of accountants including accounts preparation, audit, tax returns etc. These services confirm how your business has performed historically and what your tax liabilities are.
2. Consulting services such as reviewing your business structure to confirm that you are both efficient and effective from a taxation and commercial point of view.
3. And business development services designed to help you define, and more importantly achieve, your business vision.

We offer a free initial no obligation meeting at which we can advise clients how we will be able to assist them.

We are interested in speaking with any of your contacts that would benefit from the services a proactive firm of accounting and business development consultants can provide.

Thank you, Matt Allen, Synergee - more than just accountants.
