

# Gatwick Flagship Chapter

---

Good morning

I'm here for John Corrigan from Crystal Services this chapter's cleaning company.

We are a family run business and have been operating for the last 21 years serving the Sussex and Surrey counties. We are an excellent cleaning company with well retained staff and long standing clients of which we are very proud. I run a very reliable cleaning service for industrial and residential clients. My staff are honest and hard working well trained and constantly achieve very high standards in our work. We pride ourselves on excellent cleaning for a competitive price.

So this morning I would like an introduction to new clients or facility managers of Basepoint and Regis or companies that were being serviced by Rok or Connaught companies. Who would like to improve on their cleaning services?

Our reputation precedes us in all we do our increase in business has been due to word of mouth and good references.

However, we do not sell our company on reputation and previous customer's comments we only sell a promise and then deliver it. It is only then have we sold ourselves.

You won't need a Crystal Ball to see good cleaning you only need Crystal Services for excellent cleaning.

So remember John Corrigan of Crystal Services
